

ENTaP Champion Legacy Framework v1

Purpose

Champion Legacy extends the value of winning beyond a single tournament. Championships become part of ENTaP history, rewarding excellence immediately while recognizing champions over a fixed legacy period.

Core Philosophy

- Championships create lasting history, not one-time payouts.
- Winning should matter for years, but not forever.
- Every new generation of champions gradually replaces the previous generation.
- Legacy rewards reinforce continued participation in the ENTaP community.

Championship Recognition

- Immediate championship prize.
- Permanent Trophy Case achievement.
- Permanent non-transferable NFT or equivalent proof of accomplishment.
- Entry into the Champion Legacy program.

Both Team (Hive) and Individual Championships participate.

Champion Legacy

Champion Legacy lasts approximately ten years (final duration TBD). Each new championship season funds a Legacy pool distributed among recent champions according to a declining schedule. Recent champions receive the largest share while older champions phase down until they exit the program.

Rolling Distribution

- Current champions receive the largest allocation.
- Each subsequent year moves one payout tier lower.
- Older champions gradually phase out.
- A smaller percentage in later years may still be worth more if the platform has grown substantially.

Eligibility

Champions must maintain an active ENTaP account using a generous, easy-to-satisfy activity requirement. The purpose is to keep champions connected to the community, not to create punitive barriers.

Loss of Eligibility

Failure to maintain eligibility permanently ends future Legacy distributions. Historical recognition never disappears: Trophy Case entries, NFTs, and championship records remain permanently.

Redistribution Principle

ENTaP never keeps forfeited Champion Legacy funds. Any forfeited share is redistributed among the remaining eligible champions according to the Legacy schedule. The platform should never have a financial incentive to remove or declare champions inactive.

Guiding Principles

- Championships create history.
- Legacy rewards recognize both excellence and continued community participation.
- Recent champions receive greater recognition while honoring previous generations.
- Financial implementation and legal structure will be finalized with counsel before launch; this document captures the intended player experience and design philosophy.
